Development Presentation – Machinery of Government Changes.

CO014

- 9.1 The Principal's presentation briefed the Board on the substantial changes and challenges faced by the college both now and in the future, the key drivers of change and nature of decisions that governors would need to make.
- 9.2 Regarding the funding of 16-19 education, he reported on very positive meetings with the London Borough of Haringey (LBH) regarding commissioning issues. Haringey are in turn talking with Enfield and other contiguous boroughs where cross over of 16-19 year olds between local authority boundaries occurs. He advised that there is an emerging strong will to collaborate and ensure that learners in the sub region have the best choice and opportunities.
- 9.3 He described the substantial size of the 16-19 provision at the college making it one of the largest sub regional providers. The importance of strong relationships between the college, local authorities and other providers was emphasised. Despite growing competition for learners the college is hitting its targets year on year and has been responsive in providing new and innovative delivery strategies. Numbers are expected to remain the same next year but with less funding
- 9.4 Funding for adults next year is likely to prove a greater challenge with the emphasis on employer demand led provision and reduced allocations. The Principal illustrated how this is likely to impact on specific types of provision the key message being that colleges will have to do more for less.
- 9.5 Strategies for delivering targets include more efficient ways of working including more effective class sizes and new delivery mechanisms. It is hoped that the high performance of college will enable to operate with greater flexibility through the 'Earned Autonomy' initiative.
- 9.6 During questions and discussion the following issue and comments were noted:
 - The importance of understanding local priorities and responsiveness;
 - Implications the 'Total Place' initiative and managing the local pooling of resources;
 - The importance of being a high performing college to ease funding pressures during a period of reductions in public expenditure.
 - Relationships between the College, LBH and LBE are very good with positive conversations on commissioning and desire to engage with issues.

- Conversations are taking place with Herford Regional College to explore strategies for working together;
 - There are unmet demands and progression gaps in both Enfield and Haringey including skill deficiencies in the 19-24 age group, growing demand at 50+ due to increasing unemployment, and lack of progression opportunities.
- 9.7 It was felt that, despite the current economic climate, the college is strongly positioned to continue to thrive.
